

The PRIME LINE

Hesston Mower-Conditioners

Hesston 1090 & 1070

Here's smooth, dependable cutting action that's unmatched in the field. This simple sickle drive is found only on Hesston 1090 and 1070 pull-type mower-conditioners.

- Unique new sickle drive uses simple design to provide unmatched reliability, outstanding efficiency and smooth, sure cutting.
- Simple design also assures long service life and easy maintenance.
- 1090 and 1070 also offer big diameter conditioning rolls that adjust for gentle or aggressive handling.
- Both models feature adjustable forming and fluffing shields and large flotation tires.
- 1090 has 9'3" cutting width; 1070, 7'3".

Simplest sickle drive around.

Hesston Windrowers

The original.

Hesston Hydro Swing® 1014

Hesston was first in the field with center-pivot design... with the 1014 Hydro Swing® auger header Windrower. It's the only one of it's kind with years of field-proven experience behind it.

- 1014 works to left or right of your tractor... and tows directly behind. Lets you cut around fields in any direction... or cut back and forth.
- Operates efficiently behind tractors rated as low as 50 PTO hp.
- All-hydraulic design has fewer mechanical parts... needs less maintenance.
- Non-intermeshing, 57" conditioner rolls handle hay as gently or as aggressively as you want. It's the only one to offer rubber-on-steel or steel-on-steel conditioner rolls.
- New swathing shield attachment lays down swaths up to 9' wide!

Hydro Swing is a registered trademark of Hesston Corporation
