

Cattle crossing jitters?

Dairy farmer Mervin Weaver, Lititz, takes his milking herd across heavily traveled Route 501 four times a day. To help him get his herd safely across the busy highway, Weaver turns on an electric cattle crossing sign, equipped with flashers.

Standing in the middle of the road with red flag holding up traffic, Weaver says he's grown up with having to take the cows across Rt. 501 and doesn't think too much about it.

Once the cattle are safely across, Weaver heads to turn off the crossing sign as the cows make their way to the barn. The dairy farmer admits he's had some close calls already with cars and cows.-SM

30% LIQUID NITROGEN

BY THE TRAILER LOAD OR
BY THE TON

- Sprayers & spraying service
- Poly N liquid corn starter 10-34-0
- Premium corn starters
- Bulk blends to your specifications
- Urea & Amonium Sulfate
- Spreaders & spreading service
- Limestone
- **SALT** - Water softener & animal salt

All New HR SERIES - Air Cooled - Oil Cooked - Water Cooled
GENERAL FEATURES:

- Integrally cast cylinders with inserted and removable wet type cylinder liners
- Light hypereutectic alloy pistons
- Extra-resistant steel connecting rods alloyed with special alloy head bearings
- Surface hardened steel crank-shaft
- Drop-forged, casehardened and tempered steel camshaft
- Anti-friction cast-iron tappets alloyed
- Cast-iron tunnel type crankcase
- Rotary injection pump with mechanical governor
- Force-feed lubrication with built-in circuit and lobe type pump
- Diaphragm pump feed
- Oil and fuel filters with integral type element.
- Special structure and patented engine with consequent increases in performance and easier operation with low weight/output ratio low smoke emissions.
- Engine based on a design "modulus" formula which allows a maximum parts standardization and interchangeability.
