

Area youth to take part in state cooperative institute

LANCASTER — Eight outstanding boys and girls have been named winners in the Cooperative Business Education Program sponsored by the Chester-Delaware Cooperative Council and will represent this area at the Pennsylvania Association of Farm

Cooperatives Summer Youth Institute at Shippensburg State College, July 12-15.

Those named to attend the Institute are: Eileen Fairbairn, West Chester; Steve March, Glenmoore; Loren Ruth, Spring City; Leslie Schofield, Pottstown;

Kathryn Soltys, Spring City; Valerie Weaver, Nottingham; William Wylie, Nottingham and Nancy Yarnall, Oxford.

Terry King, Nottingham, and Mike Peters, Cochranville were chosen as alternates.

Winners were selected on the

basis of their knowledge of the business enterprise system in America, the cooperative way of doing business, and on activities of the participants identifying them with school, community, church, and youth organizations.

These young leaders will be accompanied to Shippensburg by Denise M. Bertrand, Appraisal Analyst with the Southeast Farm Credit Service. Bertrand will act as chaperone and resource person for the delegation.

The Institute program is designed to teach youth more about the business enterprise system in the United States, to help in planning their future by pointing out career possibilities in agribusiness, and providing opportunities for individual leadership development.

Approximately 150 young adults, representing the best of over 4,000 participants in the annual P.A.F.C. youth education program, will attend the four-day conference.

Climax of the Institute will be the selection of delegates to attend the American Institute of Cooperation's annual youth conference at Colorado State University, July 27-30.

There they will join with 500 other future leaders from the United States, Canada, and Puerto Rico to take part in activities at the national meeting.

The Shippensburg Institute is a joint effort of the Pennsylvania Association of Farmer Cooperatives, local cooperative councils, and the College of Agriculture of the Pennsylvania State University.
