**MIDDLE CREEK
SWINE BREEDERS
INC.**

RD 2, Denver, PA
(See Map Page A11)

FINISHING COMPLEX FEATURES THE FOLLOWING EQUIPMENT:

**FARROWING ROOMS:
NEW NARROW EUROPEAN DESIGN
FARROWING CRATE, HOT DIPPED
GALVANIZED WITH TOTAL WOVEN
WIRE FLOORING.**

**NURSERY ROOMS:
HOT DIPPED
GALVANIZED TOTAL
WOVEN WIRE
FLOORING &
AUTOMATIC FEEDING
SYSTEM**

**GROWER AND
FINISHING AREAS:
CONCRETE SLOTTED
DIVIDER PARTITIONS**

(This Area To Be Completed Later)

ON

THE COMPLETE LISSCO FLUSH SYSTEM:

The Lissco waste management system controls problems and increases your profits by flushing animal wastes from the confinement housing to a lagoon or treatment tank. The wastes are then aerobically treated by the Lissco Aqua-Vac aerator. This aeration is very similar in principle to the process city waste treatment plants used to treat sewage. Instead of the waste solids decaying, they are actually broken down and digested by non-dangerous aerobic bacteria. Gases, odors, and disease-producing anaerobic bacteria are controlled.

This minimizes your need for expensive antibiotics to fight diseases and decreases the need for constant ventilation, since the air is cleaner and fresher. Less ventilation means lower heating costs in the winter. And the Lissco flush system automatically removes wastes so there are no solids buildup and no need for costly honeywagons and the man hours involved in manually removing waste. Your livestock have a healthier living environment, you have a cleaner working environment and your operation is more economical.

**HAVING MANURE PROBLEMS? A LISSCO
REPRESENTATIVE WILL BE AT THE OPEN HOUSE**

Thanks and
Congratulations to
