

# E PLURIBUS UNI.

Imagine having all the combining capacity you need—at a cost that can spell p-r-o-f-i-t for you.

Add to that the capability to harvest up to 6 rows of corn in the morning and beans or grain in the afternoon, and you've got the Uni-System combine.

And the automatic header height control, which operates with either fixed or floating cutter bar, makes sure you harvest more crop per row.

In short, the Uni-System can become your number-one harvesting tool. We've got the facts, so stop in and see us today.

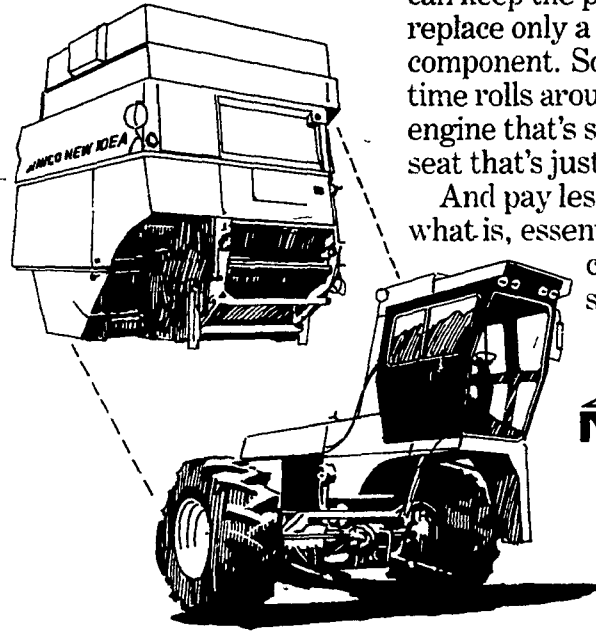

# GET A NEW COMBINE FOR LESS THAN \$16,000.

When you wear out a bit on your electric drill, do you replace the drill along with the bit?

Not likely. But when the cylinder and belts on your combine start to go, you think about trading in the whole machine. And chances are the engine and drive train are still in great shape.

Well, with a Uni-System, you can keep the power unit and replace only a harvesting component. So when trade-in time rolls around, you keep the engine that's settling in and the seat that's just getting comfortable.

And pay less than \$16,000 for what is, essentially, a new combine. Stop in and see us today.

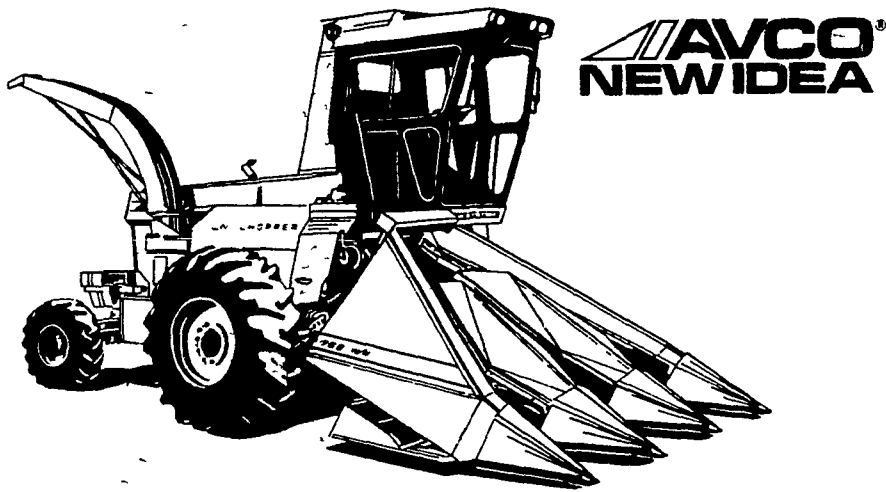

# TOP CHOP.

When you buy a Uni-System with a chopper attachment, you've got what's likely to be your hardest-working implement.

With either the 4-row narrow or 3-row wide/narrow row crop head, it's got the capability to fill big forage boxes in a hurry.

That's a lot of hard work for the money. Stop in and see us today for the facts.

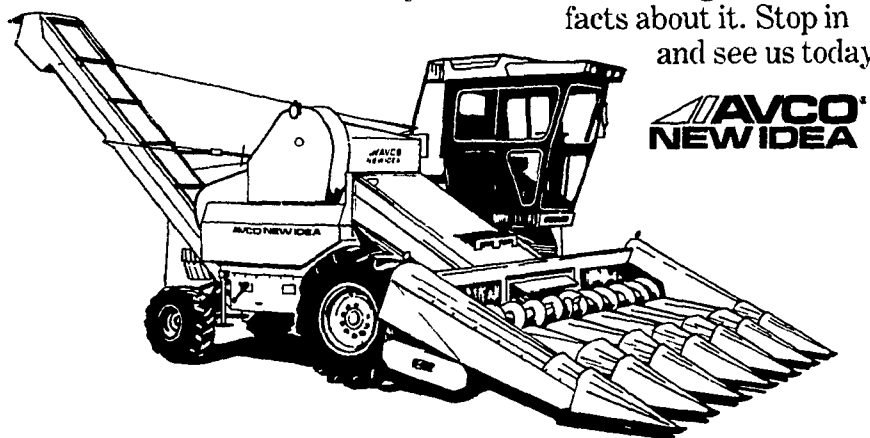

# PICKS SIX!

When you add the UniHusker to your Uni-System, you've got the only self-propelled cornharvesting machine that picks and husks as many as six rows at a time.

Its rubber fingers and long husking rolls handle corn gently—which is why the Uni is the number-one choice of farmers and corn companies all over the country for a fast, efficient, gentle way to harvest ear corn, seed corn, and even "gourmet" popcorn.

The Uni Husker could be the best thing that ever happened to your corn. And we've got all the facts about it. Stop in and see us today.
