

? That's A ? Good Question

I am interested in contacting Carol Kopper, in regards to the wheat weaving craft. I would appreciate having her address.

Mrs. Robert Stafford
Cherry Hill, New Jersey
Mrs. Stafford: Here is Mrs. Kopper's address R.D.2, Box 387, Fleetwood, PA, 19522.

I would like to know more about the Summit Hall Turf Farm. I am interested in finding out more about its operation, since I am having trouble with some turf. I would appreciate their address.

Joel Seaman
Hamburg
Mr. Seaman: The address of

Summit Hall Turf Farm is Gaithersburg, Maryland 20760. Another place to turn for help with your turf problems may be the Penn State Turf Research Center; the address is 21 Tyson Building, University Park, PA 16802, Phone 814/865-9583.

Can you give me any information about an Amish Fair and a place called Roadside America?

Mrs. Mary Peterson
Englishtown, New Jersey
Mrs. Peterson: According to the Tourist Bureau in Lancaster, there is no strictly Amish Fair, however, what you may be thinking about is the Kutztown Folk Festival. The

festival starts on June 27 and goes until July 5 and is all about the Pennsylvania Dutch Way of life. The festival consists of craft and quilting demonstrations, plays about Amish life, mock Amish weddings, and many types of Pennsylvania Dutch foods. Kutztown is located between Allentown and Reading.

Roadside America, according to its publicity brochures, is the "World's Greatest Indoor Miniature Village". It depicts rural America from the pioneer days right up to the present. Roadside America is located between Allentown and Reading on Route 22 and I-78 at Shartlesville. For more information contact Roadside America at Shartlesville, PA, 19554, Phone 215/488-6241.

Gilles to head USDA's grain inspection

WASHINGTON, D.C. — Kenneth A. Gilles, an educator and cereal chemist, has been named as head of the U.S. Department of Agriculture's Federal Grain Inspection Service. He was confirmed by the U.S. Senate on June 4.

The agency he heads was established in 1976 to ensure the accurate weighing and inspection of all grain exported from the United States. It also supervises weighing and inspection of grain intended for domestic use and develops and reviews official grade standards for grain and other commodities.

Gilles is on leave of absence from his post as vice president for agricultural affairs at the University of North Dakota, Fargo. As University vice president since 1969, Gilles was responsible for agricultural, governmental, international and industrial affairs, including the Agricultural Experiment Stations and Extension Service.

Before that, he headed the

department of cereal chemistry and technology at the University for nine years. He also taught biochemistry at the University of Minnesota, and worked in the research departments of General Mills and the Pillsbury Co.

Gilles was born in Minneapolis in 1922, attended high school and Augsburg College there, and went on to the University of Minnesota for a B.S. degree in chemical engineering. He served in the Navy from 1942 to 1946, and later returned to the University of Minnesota for a Ph.D. degree in agricultural biochemistry.

He has been editor-in-chief of Cereal Chemistry, president of the American Association of Cereal Chemists, and is the author or co-author of more than 100 publications. He has held posts with the National Association of State Universities and Land Grant Colleges and served as consultant to governmental and food processing firms.

Gilles lives in Alexandria, Va.

GOODYEAR COUNTRY TIRE VALUES

SAVES DOLLARS & MAKES SENSE!
