# AGRIFAN

HELPS TO HEAT IN WINTER!

HELPS TO COOL IN SUMMER!

Agri-fan continuously circulates air vertically, eliminating heat stratification which can cause air temperatures from floor to ceiling to differ by as much as 25 degrees.

Agri-fan forces warm, dry air (which naturally rises), down to floor level in a continuing circular process.

When the overall temperature in a building is equalized the thermostat can be lowered in the cold winter months and fuel costs can drop as much as 30%. In hot summer months, Agri-fan prevents uncomfortable air stagnation, providing dryer, cooler, healthier conditions, thereby reducing your operation costs even further.

### APPLICATIONS:

- Poultry houses
- Dairy barns
- Milking parlors
- Storage buildings
- Greenhouses
- Offices areas
- Confinement buildings
- Livestock buildings
- Processing plants
- Warehouses
- Machine shops
- Homes
- Churches

### Fan carries a five-year warranty and features:

- Sealed chrome steel ball bearings
- Totally enclosed motor, special moisture resistant silicone treated
- No maintenance
- Displaces 24,000 cubic feet of air per minute (CFM)
- Solid state infinite speed controls
- Uses less energy than 40W bulb at low-speed
- 15 amp circuit runs up to 13 fans\*
- Easy installation, just mount and plug in 32" cord. Completely assembled (except blades)
- All metal construction — 60" diameter blade sweep
- Effective up to 60 ft. ceiling height
- Aerodynamically designed blades for maximum air delivery
- Down rods available in 10" lengths
- Fans and controls are warranted to be free from defects in materials and workmanship at the time of shipment from the factory and for a period of five years.

## AGRI-EQUIPMENT, INC.

CATTLE — HOG — POULTRY EQUIPMENT  
2754 CREEK HILL RD., LEOLA, PA 17540  
PHONE: 717-656-4151

★ SERVING PA, N.J. and N.Y.
