York, is open Monday thru Friday from 9 am to 5 pm. There is no processing charge for tickets. purchased in person

I-HOICE

The Milk Check

TOM JURCHAK County Agent

NO NEWS IS NOT GOOD NEWS

If you're wondering why you haven't heard any news from Washington about the new dairy price support program the answer is simple - there isn't any.

Nor is there likely to be any before Congress adjourns for its summer recess. They won't reconvene until September 9 and the present price support program ends September 30.

If no new legislation is passed, the present program will continue. If you think that's going to happen you've never heard of the boll weevils or the Reagan 25 percent/three year budget cut. I guessed wrong back in March when the President signed the bill eliminating the April 1 support price adjustment just 18 hours before the deadline, but I'm a believer now.

The senate Agriculture Committee has a bill marked up and ready to be reported but I don't think they will. The house is too far behind to have anything ready

before the recess. Both of them include a minimum of 75 percent of parity but the Senate bill puts limits of \$500 million maximum or net purchases of not over 3.52 billion pounds of milk equivalent a year. This bill allows the support level to drop to 70 per cent to meet these minimums.

I believe that if they stay with the \$500 million maximum, they'll have to go below 70 percent in 1981-82 to make it. That's only a guess and no one will really know until the second budget resolution on September 15 when the dollars are divided among all the programs in the federal budget.

The best you can hope for is to keep the present \$12.80 support price and let inflation erode that down to fit the cut of the budget in the following years. If they decide to take a deeper cut immediately, you'll see the results in the October milk check and it'll be a long, cold winter. In any case, you better be prepared to bite the bullet instead of the jelly bean.
