

Troy Dairy Show

(Continued from Page A35)

John Allford's senior yearling entry captured the junior championship for the East Smithfield dairy producer.

Denise Kneller of Troy exhibited the first place senior calf and the junior get of sire. And Eugene and Brian Harris of East Smithfield took the blues for lifetime production and top 3-year-old in the Jersey show.

In the 40-head Guernsey show, the Wilcox Brothers of Canton captured the grand champion honors with their senior champion entry, along with the reserve junior championship. They exhibited both the first place 3-year-old and 4-year-old, the best three females, and the top junior yearling. The Wilcoxes, along with the Wright Brothers of Canton, had the top senior get of sire.

Wright Brothers also had the junior champion Guernsey and the

first place produce of dam entry. Their blue ribbons in the senior yearling class, 3 and 4-year-old dry cow class, and senior 2-year-old helped to earn the distinction of premier exhibitor for the farm.

Premier breeder honors went to Brackman Brothers, Canton. Their first place 5-year-old captured the senior championship before claiming the reserve grand champion's trophy and the award for best udder. The farm also exhibited the first place daughter and dam, dairy herd and junior 2-year-old.

Chris Brackman showed the first place intermediate calf.

Charles Castle of Canton took the blues for his senior calf, junior get of sire, and aged dry cow entries at Friday's show. And Bernard Hunsinger, also of Canton, exhibited the top junior calf in the Jersey competition.

"Can't get your walls clean?"

Kemlite's GLASBORD® frp wall panel cleans up easy!

- Moistureproof
- Rustproof
- Dentproof
- U.S.D.A. accepted
- Shatterproof
- Stain resistant
- Odorfree
- Will not rot or mildew
- Cleans simply/quickly

Glasbord panel is a tough, semi-rigid wall lining material of fiber glass reinforced plastic — superior to metal and painted finishes. It installs easily in any type construction and is suitable for building new or refurbishing. Available in a variety of sizes, complete with all accessories. Also available with low smoke development, fire retardant properties. Ask about low smoke Fire-X Glasbord paneling.

OWN YOUR OWN PERSONAL FARM COMPUTER

YES! Owing Your Own Personal Computer
Will Be A Valuable Asset.

Your Computer Will:

- Do Financial Planning
- Handle All Bookkeeping
- Controls NATURAL AIR & LOW TEMPERATURE GRAIN DRYING

Your Computer Will:

Print out the following reports anytime:

- ★ PROFIT & LAW STATEMENT
- ★ BALANCE SHEET
- ★ ACCOUNTS PAYABLE
- ★ ACCOUNTS RECEIVABLE
- ★ FINANCIAL PLANNING REPORTS, AIR DRYING PROGRESS REPORTS

ADDITIONAL COMPUTER PROGRAMS ARE AVAILABLE!

The Financial Planner:

This program is excellent for all types of farm operations including livestock, poultry and grain farming of any kind or size.

This program can project future profits and can keep you informed instantly how your profit picture will be affected by changes in items like . . . gas, seed, fertilizer, lime, herbicides, feed ingredients, interest rates, etc., etc.

YOU MUST SEE THIS!

AIR DRY PROGRAM

for

LOW TEMPERATURE GRAIN DRYING!

Takes the guess work out of low temperature drying.

Features:

1. Tells you when to turn on/off heat and fan.
2. Allows you to run your system to capacity.
3. Prevents bin overloading.
4. Keeps track of each bin's static pressure, grain temperature, outside temperature and humidity and bushels of grain in each bin.
5. The computer can print out a daily sheet containing the above information for the whole drying season.
This way you can compare your progress from season to season.
6. This computer can monitor the progress from 1-100 bins.
7. If your bins or fans change, your program can easily be changed.

IF YOU WANT TO UPDATE YOUR PRESENT RECORD—
KEEPING TO A PROFESSIONAL LEVEL OR IF YOU ARE NOW
OR WILL BE USING LOW TEMPERATURE DRYING THEN CALL
