

# Lycoming County youths emerge champions

LYCOMING — Forty 4-H and FFA youth participated in the third annual market hog, beef, and lamb show and sale at the Lycoming County fair grounds at Hughesville, July 23.

Kathy Snook, 17, a member of the Nippenose Valley 4-H club was

the proud owner of the Grand Champion Market Hog. Kathy lives at Jersey Shore on the OK Hog Farm. She is the daughter of Mr. and Mrs. Edward Snook.

Kathy received \$10 per pound from the Country Store (Economy Locker), Pennsdale, for her 5-

month-old hog, "Edwina," which weighed 206 pounds.

The dam was, Le Ann Sally, a registered Yorkshire gilt, and the sire was, Class, a registered Yorkshire boar, purchased from

Leon Arnold, Lebanon. The total amount for the Grand Champion hog was \$2,060. The contending bidder was Oscar Baumert, livestock dealer, Herndon.

The Reserve Grand Champion

hog was a 210 pound Yorkshire gilt owned by Dean Edwards Jr., 12, of Jersey Shore. He is a member of the Anthony Acres 4-H club, and

(Turn to Page C26)

The Reserve Grand Champion Hog was bought by Oscar Baumert, right, of Herndon for \$5.60 per pound. Showing the hog was Dean Edwards Jr., left. With him is Howard Shaffer.

The Grand Champion Market Steer is shown by Betsy Hepburn. She sold the steer for \$1.35 per pound. Pictured with her are Howard Shaffer and buyer John Fritz of Sunset Ice Cream, Williamsport.

## Dairy Automation

### De Laval is the name to know

If you're thinking dairy automation there's just one name you need to know: De Laval. For over 100 years dairymen world-wide have depended on De Laval products to keep their dairies running smoothly and profitably. You can too. Check these De Laval® automation products, all designed to make your milking easier. Then check with us. We've got full details on these fine products and the whole line of De Laval dairying equipment & accessories.

- DV-300™ milker — rugged milker features automatic shifts of vacuum levels and pulsation rates.
- A.R.M.™ devices — Automatic Removal Mechanism features parallel linkage support arm. "Armless" model also available.
- Autocord™ removal device — the affordable way to automate milker removal.

### Challenger™ Feeding System

This is the breakthrough technology that made it possible to feed grain to dairy cows according to individual needs—automatically. The De Laval® Challenger™ Feeding System is the obvious choice for dairy farmers who want electronic grain dispensing at a moderate installation cost.

The Challenger system is controlled by neck-worn transponders which store feeding instructions for each cow; these provide a radio link with feeding stalls where cows are fed upon command. The Challenger system has capabilities demanded by the most modern operation, yet it's feasible for herds as small as 25 cows. May we show the surprising figures?

For fast, long lasting fly control in barns, stables, and poultry houses
