NEW! RO-CROP CULTIVATOR with the Exclusive "No Wobble" Parallel Links

One of the weaknesses of many cultivators is that the parallel linkage is light weight and bearing areas are small. All too soon the assembly starts to wear and break down. Brillion's NO WOBBLE links are made of cast iron (12 lbs each). Each end is equipped with full 2" wide non-lube sleeve bearings. The Brillion "S" tine cultivator (model BRS) with four-way tooth movement is designed for high speed cultivation, especially in conjunction with chemical weed control. The "S" tines also mulch the soil and level the ground for easier harvesting. Available in rigid and folding models for four to 12 rows.
