in a hurry!**

International® 50/60 Shredders

These shredders truly fine-shred heavy, tough cotton, corn or sorghum stalks to speed decomposition, ease your tillage, planting and cultivating work. They're also useful for clipping pastures, shredding weeds, tall grass, brush. And they actually require less power to operate because knives are spiral-mounted around the rotor so they hit your crop at different times, conserving power.

Finance plans available.

- 2 sizes, 150 and 170 in wide
- Shatter-shear type knives can be reversed to match the job; blunt edge shatters stalks completely
- Wheels easily adjust up or down for cutting height, in and out to match row spacings, endwise transport for 170-in model
- Safety features: full shielded drives, gear case, extended end sheets, front-mounted curtain
