NEW! Hydraulic Folding Wing Pulverizers

Brillion has been the leading manufacturer of pulverizers for many years. The latest units to be added to the line include a series of hydraulic wing models in working widths of 21', 23' and 25' that fold to 12'6". A second series in working widths of 26'8", 30'8" and 32'8" fold to a transport width of 14'2".

The new design requires a single hydraulic system for operation. The machine can be raised and lowered and wings controlled from the tractor seat. May be ordered with regular smooth rollers or Crowfoot wheels.

Now you can cover more acreage, faster. Break up hard clods, pack soil free of air pockets. Help cover seed, hold moisture, push down stones. Husky and durable, like all Brillion pulverizers, they're built to take the punishment of today's high speed farming.
