

# Ag Progress

## scenes

A new pest discovered at last year's Ag Progress Days? Actually, it was a harmless display from the FMC Corporation, one of the many commercial exhibitors at Pennsylvania's annual Ag Progress Days.

Milton Hershey School Farms showed the grand champion hay crop silage sample in the state hay show last year. Al Dugan, left, farm manager, checked the sample with Penn State Agronomist John Baylor. The first cutting from a field of WL 311 was made at early bud. The hay show will be a major part of the Ag Progress Days show once again.

# PENN STATE'S AG PROGRESS DAYS

Jay McCarrell, Washington County, showed a later cutting of heat finished Conestoga alfalfa to become the grand champion of the state hay show last year. Show judge Clarence Bryner, left, liked the fine stems, leafiness, green color and early maturity of the sample. The hay show will be judged on Tuesday during Ag Progress Days this year.

**Cost Efficient and Convenient — Roskamp's Portable Grain Roller Mill**

**Portable Grain Roller Mill**

The Roskamp Portable Grain Roller Mill can process a wide range of grains (including high moisture and dry corn) and forages anywhere on your dairy farm. The optional permanently mounted blower discharge is ideal for filling upright silos, bunkers and pits. (Standard auger discharge is also available.) The low-maintenance Portable Grain Roller Mill features solid-to-the-shaft white iron rolls with the capability of processing up to one million bushels of corn without recorruating.
