

Ritter wins engineering award

NEWARK, Del. — The American Society of Agricultural Engineers has named William F. Ritter outstanding young engineer in the North Atlantic Region. Ritter, a member of the Agricultural engineering faculty at the University of Delaware, received the award for his research into waste management and nonpoint source pollution as well as for his service activities.

An active member of the agricultural engineering professional society, Ritter has chaired its national student design competition and its regional

student career guidance committee. At present he is the program chairperson of the water quality committee of the American Society of Civil Engineers.

Ritter has served as faculty

advisor to three first place winners in the American Society of Agricultural Engineers' regional student paper competition. He is also active in the Toastmasters organization.

The award was presented at the annual meeting of the American Society of Agricultural Engineers, which was held this year at Brock University in Ontario, Canada.

TRACTOR MOUNTED CORDWOOD SAWS

THE KNOTTY CORDWOOD SAW is a new and unique machine to meet the needs of any wood user or dealer. It's driven by a power take-off-shaft through an offset cast iron gear box. Can be used on any tractor with standard category 1 hitch, with 1-3/8" standard PTO.

- SEALED BALL BEARINGS
- TRIPLE V-BELT DRIVE
- 30 INCH BLADE
- FREE STANDING TILTING TABLE
- RUGGED ANGLE IRON CONSTRUCTION

DELIVERIES
AVAILABLE

Effective Chemical Incorporation. Efficient Seedbed Preparation.

BUSH HOG® SEEDBED MASTER

1440 Flex Wing Disc
With Optional
Dura-Spring Gang Hangers.

This economical new disc from Bush Hog® is ideal for chemical incorporation and seedbed preparation. And, as in every Bush Hog, the design features work together to make up a rugged, high performance machine that handles the roughest soils. Optional dura-spring gang hangers are specially tapered for increased and controlled flexibility. Bearings are encased in rubber shock mounts for added protection. Standard rigid gang hangers feature triple-lip sealed, completely regreasable ball bearings.

Gang angles are 20 degrees front and 18 degrees rear with blade spacings of 7 1/2", 9" or a combination of both. Wings flex up and down 9 degrees for better pulverizing on uneven ground.

Come in soon and take a close-up look at Bush Hog quality.
