← COME SEE THESE SPERRY NEW HOLLAND FARM EQUIPMENT SPECIALISTS. THEY'VE GOT THE PRODUCTS AND FINANCING PLANS THAT ARE SURE TO SUIT YOUR NEEDS!

The Model 892 is the biggest capacity pull-type forage harvester offered by Sperry New Holland. Built for big tractor horsepower, the "892" will power through the driveline, and be used with tractors up to 175 horsepower.

The optional electronic metal detector — a Sperry New Holland exclusive — reduces harvester damage and can cut down on hardware disease. The "892" is available with 12-knife or 8-knife cutterhead. Exclusive underbeveled knives never need rebeveling and make knife sharpening fast and easy. Flip-up feedroll makes shearbar adjustment easy.

There's a big choice of crop heads, including the exclusive interchangeable 3-row crop head/windrow pickup, 2-row low-profile crop head, conventional windrow pickup, sicklebar and ear-corn snapping heads. Under-knife baffles increase capacity.

Like all Sperry New Holland machines, the "892" is backed by a service and parts system that's second to none.

There's nothing like a Twin Rotor™ combine from Sperry New Holland. For good reason. The dual-rotor threshing is patented so others can't duplicate it. Come in soon and let us tell you about this exciting advance in combining. There are three models to choose from. And be sure to ask us about the completely new line of Sperry New Holland corn heads, flexible cutterbar soybean headers and rigid cutterbar grain heads.

Stop in and get a great deal on the Sperry New Holland Model 315 baler. This 14" x 18" baler is built extra rugged to handle tough crops. It's designed to work hard and give years of dependable service.

Now's the time to buy because we're moving our complete stock of hay tools.

Already have a new baler? Then stop in and see our Sperry New Holland automatic bale wagons and mower-conditioners. They're priced to sell, too!

The 250-hp Model 1900 chopper features an exclusive electronic metal detector that reduces harvester damage, and helps cut down on hardware disease. Exclusive underbeveled knives never need rebeveling. Exclusive flip-up feedrolls make shearbar adjustment easy. Exclusive interchangeable cropheads — ideal for the farmer/rancher who chops both windrowed crops and row crops. Plus a big choice of other crop heads. Under-knife baffles increase capacity.

Full-width conditioning rolls in the Model 489 Haybine® mower-conditioner are located in the main frame, not the header. The lighter header responds quicker to ground contours and greatly reduces knife and guard damage. The "489" is designed for operators who demand the very best.
