# THE PATZ

## Reliable **Year-Round Feeding**

Hard, packed and frozen silage makes feeding more than a routine chore.

Patz gives you two solutions to the problem - the RD-790 ring-drive silo unloader and the 98-B surface-drive silo unloader. Both have a double-hook gathering chain with hardened steel cutters and claws that rip through frozen and packed silage.

Patz powered silo wall cutters prevent silage build-up along the walls, so there's less wasted feed. And the claws and cutters of the gathering chain deliver a steady flow of sliage day after day.

Want to know more about the Patz silo unloaders? Bring in your questions and your particular unloader needs. We'll show you how to get the most for your money ... with Patz.
