reporter, and song leader. He also assisted with club activities and events as a teen leader.

The state wood science contest winner completed projects in wood science, dog, gardening, ceramics, photography, beef, teen leadership, strawberries, automotive, electric, foods, and leathercraft.

Locally, David took part in the 4-H demonstration day, fair, beef show, officers training, leaders banquet, and achievement program.

He also participated in the Pennsylvania Association of Farmer Cooperative Youth Institute, Washington Focus, State 4-H Achievement Days, Pennsylvania 4-H Leadership Congress, and State 4-H Capital Days.

He won county 4-H trophies in wood science, dog, vegetable, and careers.

Commenting on the values of the educational youth program, David said: "It has taught me many skills through project work. Training in leadership has also been an important aspect of the program."

Nancy Eisenhart

The daughter of Mr. and Mrs. Rodney Eisenhart, she is a senior at the Spring Grove Area Senior High School. She has been a 4-H member for nine years.

A member of the Thomasville 4-H Club, Nancy served as vice president, secretary, treasurer, news reporter, song leader, and teen leader.

The state dairy foods contest winner completed projects in dairy foods, teen leadership, meats, sewing, nutrition, and crafts.

Locally, she took part in 4-H day camp, exchange program, fair,

officers training, roundup, dress revue, and leaders banquet.

Nancy also participated in the Regional 4-H Teen Leaders Retreat, Pennsylvania 4-H Leadership Congress, State Farm Show, State 4-H Achievement Days, and Washington Focus.

"Club work has given me a chance to meet many people as well as teaching me leadership and citizenship skills," said Nancy.

Hans Spahr

The son of Mr. and Mrs. Richard Spahr, Hans is a senior at the Dover Area High School. He has been a 4-H member for six years.

A member of the Davidsburg 4-H Club, he served as teen leader, vice president, news reporter, and treasurer.

The state entomology contest winner completed projects in beekeeping, teen leadership, rocketry, foods, leathercraft, wood science, careers, ceramics, and pet care.

Locally, he took part in the 4-H roundup, demonstration contest, olympics, talent contest, officers training and 4-H expo.

Hans Spahr

Hans also participated in the Regional 4-H Demonstration Contest, State 4-H Achievement Days, State Farm Show, York County Fair, Adams Electric Youth Tour. His beekeeping demonstration at the 1980 State 4-H Achievement Days earned him a gold medal.

"Not only are many of my projects fun to do, they usually save me a lot of money. Club work provides the element of motivation in my life," points out Hans.

PDA proposes milk sanitation changes

HARRISBURG — Pennsylvania Agriculture Secretary Penrose Hallowell announced Monday a public hearing to be held Wednesday, October 14, to discuss proposed changes in the State's milk sanitation standards.

"The proposed revisions, published September 26 in the Pennsylvania Bulletin, are needed so our state standards can better conform with recently revised federal standards," Hallowell said.

He said interested persons are invited to attend the public hearing at 10 a.m. in the State Agriculture Building, 2301 N. Cameron Street, Harrisburg. All comments and suggestions should be submitted in writing prior to oral testimony, he added.

Those persons unable to attend may send written comments to G.W. Fouse, Chief of the Division of Milk Sanitation, Pennsylvania Department of Agriculture, 2301 N. Cameron Street, Harrisburg, PA 17110.

Included among the proposed revisions are requirements for milk tank trucks to be sealed while in transit, accompanied by a shipping statement, and for all

vehicles carrying milk and dairy products to be marked to identify the milk plant that processed it and the hauler who is transporting it.

The revisions will replace the current semi-annual test for vitamin D content in milk with a new, more sensitive chromatography procedure conducted only once a year.

The Department's Division of Milk Sanitation would also be required to approve plans before the installation of on-farm milk storage tanks, and it will be necessary for pasteurized milk containers to have tamper proof closures.

"The proposed revisions will provide more effective, uniform state-wide standards for the production, processing and distribution of milk and dairy products," Hallowell said.

"Pennsylvania is world famous for its dairy industry which supplies milk and dairy products to markets in states all across the Northeast. The new standards will ensure the continued interstate movement of these quality products and keep Pennsylvania Agriculture Growing Better," he concluded.
