MIXER**

Electronic Scales,
82 Bushel Capacity,
3 H.P. Electric Motor
With Drive is
Standard Equipment.

Here are some very important features you should consider before you buy any mixer:

1. Mixing area is made of 3/16" copper bearing steel to resist rusting from high acid feeds.
2. This unit is designed to move through a 36" doorway.
3. This unit features direct drive which eliminates all belts, with an industrial oil bath gear box.
4. Standard equipment includes magnet in unloading chute to remove foreign metal.
5. 3 mixing augers guarantee precise mixed rations which will pay for this unit very quickly. Users can verify this factor

Adams farmers elect directors

CASHTOWN — Six directors were elected and fifteen policy recommendations were approved at the recent annual meeting of the Adams County Farmers' Association held here at the Cashtown Fire Hall.

One policy approved by the Adams County farmers recommends the use of DDT to rid the state of gypsy moth.

Three policies were aimed at keeping animal rights groups from interfering with farming operations. The policy that was finally voted on and approved stated that the "Friends of Animals" actions should be curtailed so as not to hinder legitimate farming activities and that PFA should seek to improve relations with the animal rights movement and work with advocates in a professional educational manner to explain those practices necessary in modern agriculture.

The fifteen recommendations approved at this annual meeting will come before the Pennsylvania Farmers Association Annual meeting which begins November 8 at the Hershey Convention Center.

Concerning the Water Rights Bill, the farmers resolved that the right to use ground and surface water for agricultural purposes is a property right which should not be taken from the owner without just compensation.

Farmers also recommended: that manure storage facilities be exempt from local taxation; that the percentage of associate members be increased from 10 percent to 20 percent for PFA; that

state and local government be required to restore roadside drains for farm access which are eliminated or changed by road maintenance; that milk handlers, proprietary and cooperative, be required to develop a formula and pay producers on the basis of solids, not butterfat; that a combination of a locally levied flat-rate income tax and property tax for the purpose of school finance be implemented and that the rate and proportion of taxes be at the discretion of the local taxing authority; that poultry and egg buyers come under and be included in the packers and stockyard act requiring payment to producers within a given amount of time; that daylight saving time be left as it is; that Conrail be returned to a private rail system by 1984.

Six directors were elected: Jeffrey Waybright, Ronald Funt, Arthur Musselman, Samuel Stoner, Tedd Rhodes and Fred Scott.

At an organizational meeting of the Board of Directors, Mervin Myers, Littlestown was reelected president; Fred Scott also of Littlestown was elected vice president; Calvin F. Bream, Gettysburg, treasurer; Mary Mills, Gettysburg, secretary; and Mabel Bream, county information director.

Delegates to the State Convention are Mervin Myers, Fred Scott, Guy Donaldson and Dale King. Alternates are John R. Pitzer, John Hess and Arthur Musselman.
