How to get a million pounds out of four cows.

Use good management, and Beacon System Six!

Over in Horseheads, New York you'll find four very busy cows. Their names—Lantland Found Hope Sylvia, Lantland Ormsby Marsha; Lantland Found Hope Daisy, and Lantland Found Hope Jaye. Together, they've produced a total of 1,006,455 pounds of milk since calving in 1969. Each has completed 10 lactations, 7 of which produced over 30,000 pounds of milk each! And they're still producing!

One reason these four cows have done so well is good management. All are daughters of Lantland Fond Hope Clyde, a homebred son of Lakefield Fond Hope. They've been raised by Fred Lant and Family (Ross, Marjorie and Walter), owners of Lantland Farms and highly knowledgeable owners of over 210 cows and 150 heifer and calves.

Another reason is Beacon. The Lants are taking advantage of their Beacon Advisor, who helps plan the nutritional needs of their top producers. Using Beacon's plan, like our new System Six, the Lants have fed these four fabulous cows Beacon protein supplements, dry or high moisture corn, limited amounts of corn silage, and hay and haylage (treated with Beacon Pre-Serv products).

If you'd like to have better producers, maybe even record breakers like those of Lantland Farms, call your Beacon Advisor. We'll do all we can to help make your cows worth a million.
