## CCC interest rates to stay at 14.5 percent

WASHINGTON, D.C. — Interest rates for 1981-crop loans and storage facility and dryer loans made through the U.S. Department of Agriculture's Commodity Credit Corporation will remain at 14.5 percent through Jan. 31, according to Secretary of Agriculture John R. Block.

Block said the 14.5 percent rate has been in effect since April 1, when USDA announced it was instituting a "floating" interest rate, subject to adjustment on the 1981-crop and facility loans.

The variable interest rate on outstanding loans—which enables CCC to adjust rates in line with borrowing costs to the U.S. Treasury—will continue in effect, Block said.

### WHAT'S YOUR PROBLEM?

Here's A Timely Tip...

### Apply lime early

Take advantage of early results by liming in the late Summer and Fall. Get ground ready for the first Spring shoots by allowing the lime all winter to condition the soil.
