DAIRY-TRONIC™
Controlled feeding system by **FARMTRONIX™**
Patents Pending

Pays For Itself
DAIRY-TRONIC gives you the data you need to do a good job of herd upgrading. It increases milk production, extends peak milking periods and allows you to keep a healthier herd through controlled feeding. By reducing labor, feed costs and promoting better feed conversion efficiency, DAIRY-TRONIC adds up to profitability.

Easy to Operate
Easy to use, easy to update, the keyboard allows you to customize your feeding program for each cow. Simply change rations or add cows as you wish. Information about feed intake and health is at your fingertips. Every 24 hours you automatically receive printouts of each cow's intake, or you may view up-to-the-minute information anytime, at the touch of a button.

Fits Any Size Herd
FARMTRONIX offers a complete product line designed to fit many herd sizes. Included in the DAIRY-TRONIC system is multiple feed station capability delivering up to four different rations to selected cows.

Check our prices, you will be surprised.
