9H557 WISEMAN and 9H574 DINO are two recently proven bulls, both over +1200 PDM, plus on type, and add new strength and pedigree appeal to the Sire Power line-up

DINO daughters are very tall, stylish cattle with correct legs. Their fore udders are smoothly attached and the udders have a strong center support and correct teat placement. Use DINO to improve stature, udder support, and teat size, shape, and placement

WISEMAN combines Chief and Astronaut to sire smooth cattle with outstanding udder attachments. Their rear udders are very wide with exceptional height of attachment as well as strong and smooth fore udder attachments. WISEMAN daughters also have smooth, wide rumps and feet with good depth of heel

WISEMAN and DINO semen is available from Sire Power Representatives. Contact us at 717-836-3168
