

## Md. grain trade regulations hearing Jan. 19

ANNAPOLIS, Md. — Hearings on regulations to implement two major new laws dealing with the grain trade in Maryland will be held on January 19, 1982, by the Maryland Department of Agriculture which is charged with

carrying out the laws.

The hearings, to be held in the Maryland Department of Agriculture's Conference Room in the Parole Plaza Shopping Center, west of Annapolis, will begin at 10 a.m.

Involved will be two sets of proposed regulations drawn up by MDA to carry out the administration of the laws that: set up a system of licensing all persons and firms in the state which buy 25,000 bushels of grain or more per

year; and set up a "Maryland Grain Indemnity Fund" which will have as its purpose insuring sellers of grain against loss in cases where buyers go bankrupt or the grain is destroyed by fire, flood, storm, explosion, etc. prior to full

payment. Persons wishing copies of the proposed regulations are invited to call or write Thomas O. Meredith, Chief of Grading Services, Maryland Department of Agriculture, Parole Plaza, Annapolis, Maryland 21401. Meredith's office telephone is 301/269-2322.

# WHEN CORN PAYS THE BILLS

## XL-55a

You start with DEKALB XL-55a because you know it puts more corn in your bins... more cash in your pocket.

XL-55a performs consistently, year after year, no matter what type of conditions come your way during the growing season. Whether it's too hot and dry or too cold and wet, XL-55a gives you the kind of consistent yields you can take to the bank.

With XL-55a you get a corn that hangs on to its ears and gives you more harvestable yields, season after season, than hybrids of similar maturity.
