HAYBUSTER BIG BALE BUSTER THE SENSIBLE SOLUTION FOR FIELD OR FEED BUNK FEEDING

Just lower the fork (hydraulic operation), back it under the bale and the bale is lifted into the shredder.

Use the BALE BUSTER for "bedding" - inside or outside. Drop adjustable deflector down for range feeding. Spreads bale in an easy-to-feed windrow.

Shredding big bales into feed bunks is an easy job for the BALE BUSTER. Flow control valve regulates grinding for coarse or fine feed... SENSIBLE!

Shred big bales right in the field for range feeding. The BALE BUSTER lays ground hay evenly in easy-to-feed windrows - no trampling or hogging by cattle... SENSIBLE!
A one man operation, simply back up to the bale... pick it up with the fork... tilt it into the BALE BUSTER... all in a few seconds. You're ready to shred hay into feed bunks or field windrows... SENSIBLE!
(Bunk feeder attachment optional)
