Introducing THE NEW 200 SERIES TRACTOR

See On Display During Our Sales Days And Open House

NEW SELLING FEATURES FOR THE 200 SERIES TRACTORS!

- The new one-piece grille opens in seconds to service components like the air cleaner, batteries, headlights, of cooler and oil lines—depending on the model. Saves operator time promotes regular maintenance.
- The steering wheel on these new tractors features a deep-dish design. This raises the rim of the wheel about 2 in (50.8 mm) and puts it in a more comfortable position. It's really noticeable during those extra long days on the tractor seat.
- New one-piece non-rusting instrument panel has four gauges which have been designed for improved reliability and long trouble-free life. Gauges have stainless steel cases—no more rusting.
- New spin-on filter makes servicing the auxiliary hydraulic system faster and easier. Just spin the old filter off—spin the new one on—it's that easy. Saves time and messy oil spills.
- Gear shift levers on larger models have been moved forward making a larger open area in front of the seat. This makes it much easier to mount or dismount.
- New push-to-couple hydraulic couplers save your customers time by making hook-ups easier. Operator just plugs the hose into the conveniently placed outlet and he's ready to go.
