

IDEAL[®]

Livestock Equipment

- FARROWING CRATES
- STACKED NURSERY PENS

- HOG FEEDERS
- RAISED CRATE DECKS

LEISS VENTILATION EQUIPMENT

MANUFACTURING For The Farm

Wall and Ceiling Mount

12 to 24 inch
Direct Drive

24 to 36 inches
Belt Drive Fans

- Completely automatic, fully assembled ready to operate.
- Heavy gauge corrosion resistant aluminum fan blade.
- Extra sturdy, corrosion resistant pointed steel frame.

Poly Tube Ventilation

Ventilation For Dairy - Hogs & Chickens

RAISED CRATE DECK

- Increase profit by reducing stress and death loss. Farrow pigs off cold floor.
- Allows economical conversion of existing facilities for crate use.
- Simple to assemble deck and install farrowing crate.
- Cost and problems of pit and liquid manure equipment are eliminated.

STACKED NURSERY PENS

Easy way to increase production in new or existing buildings. Raises pigs up off cold slats, helps reduce stress, death losses and improves gains. Handles up to 10 pigs in 4 ft. x 4 ft. pen, 20 pigs in 4 ft. x 8 ft. size. Modular 4 ft. x 4 ft. units allow expansion side by side or back to back.

STAINLESS ROTARY FEEDER

Entire hopper rotates for positive feed flow; deep lip on optional 8- or 12-divider feed saver grill helps prevent waste. Easy crank-type feed adjustment at top allows clearance for drop tubes of automatic feed systems. Dependable quality.

MANURE MANAGEMENT A PROBLEM?

introduces

The Modern Hydraulic Manure Pump

Manufactured by
Kobiske Metal & Hydraulics Inc.
Loyal, Wisconsin

"BIG CAPACITY"
Easily handles the output of your barn cleaner WITHOUT STOPPING

"VERSATILITY"
Handles long, short, or no straw

PATENT PENDING

We invite you to compare and you will agree ours is the solution.

Kraiburg Happy MooMats Keep Cows Happy, Resting, and Profitable!

The installation of our mats in your cowshed doesn't just save you time, which is money, it helps your herd give more milk, which means added profit! And more! Just look at these features.

Elastic comfort surface. Our advanced rubber chemistry and design groups have developed a surface and a rubber substructure that provides a pleasant lying surface and results in noticeably increased milk yield. (University testing has shown that increased milk yield results from increased lying time.)

"Sure-grip" textured tread surface. Specially developed tread surface gives solid footing, protection against udder injuries, abrasions and sore hocks.

Grooveless surface provides easy cleaning. Pebbled surface has no grooves to retain urine or manure, washes easily, dries quickly with minimum effort.

Sanitary non-porous texture. Resists bacterial acids, trapping of bacteria and disease. Reduces barn odors. Saves bedding materials. Provides safe, sanitary lying comfort for cows. Reduces yearly bedding costs by up to \$7,000.00 per 100 cows.

Excellent heat loss resistance. Keeps cows' body heat from dissipating. Thermal insulation action rejects cold and dampness from concrete underflooring and minimizes mastitis.

No bulging, edge cracks, hair cracks. Superior compounding and proper thickness provide insurance against wear, aging and loss of service.

10 Year Warranty Program. Because Kraiburg products are the result of better rubber technology and because they are carefully manufactured and have been thoroughly laboratory and field tested, we back every mat with a Ten Year Warranty.

That is our story. A product to make cows comfortable. A product to make life easier for the dairyman and more profitable.
