

AT THE
**PENNA. FARM
SHOW**

**Meet
Series 10—
the new
World
Tractors.**

**Ford 2610 to 7710:
34 to 86 horsepower.**

Come in and check out the new 34 to 86 PTO horsepower* Ford Series 10 tractors. They're the easiest handling, most productive tractors we've ever offered in these power sizes.

- More powerful and more fuel efficient engines than previous models.
- New, optional synchromesh transmissions with shift levers out of the way of your feet.
- Smoother, more powerful hydraulics with up to four optional remote valves.
- Optional front-wheel drive on 62-hp and larger tractors.
- Improved power steering, handy new controls.

*Manufacturer's estimate

**BIG
CAPACITY HYDRAULICS!**

New 34 to 86-hp* Ford Series 10 World Tractors!

Here's more hydraulic capacity than ever offered before in these Ford power sizes! With the new optional auxiliary pumps, capacity ranges from 13.6 gpm to 18.2 gpm, depending on the model. That's plenty for fast loader cycle times, running hydraulic motors and operating multiple cylinders simultaneously.

They've got the control you need, too, with improved sensitivity and positioning. You can equip your World Tractor with up to four optional closed-center remote valves.

*Manufacturer's estimated PTO horsepower.

**NEW! SYNCHRO-
SMOOTH**

**TIRED OF THE SAME OLD GRIND?
CHECK NEW FORD SYNCHROMESH TRANSMISSION!**
