

Wayne elects Extension officers

HONESDALE — Dale Teeple, Equinunk, was elected president of the Wayne County Cooperative Extension Association at the recent re-organizational meeting of the Extension Executive Committee.

Robert Terrel, Waymart, was elected first vice president and John Pawloski, Lake Ariel, second vice president. Joyce Hoffman, R1, Honesdale was re-elected secretary and Robert Muller Sr., Pleasant Mount was re-elected treasurer.

Lewis Locklin, Lakeville and Dale Teeple serve as delegates on the Northeast Pa. Regional Executive Committee and Teeple is also a member of the Pennsylvania Council of Cooperative Extension Associations. Theodore Kostige, Lakeville and Robert Terrel serve as alternate delegates on the regional executive committee.

Two new members, Richard Penwarden, Beach Lake; and Mary Theobald, R2, Honesdale, were welcomed to the committee.

The Extension Executive Committee consists of twenty-eight local persons who are elected by the public at the annual meeting of the association.

The committee meets monthly and is responsible for Extension program guidance and local

tunding.

At the January meeting Earl Simons, county commissioner and Richard Simpson, chief clerk of Wayne County spoke to the group on various issues facing county government.

The next meeting of the Ex-

ension Executive Committee, scheduled for Feb. 1 will be devoted to extension program planning at which time the committee will make suggestions to the Extension staff for educational programs to be conducted between Oct. 1, 1982 and Sept. 30, 1983.

Your cows need minerals

... because a cow needs a total of 17 different minerals in the proper ratios and at the right levels to maintain peak milk production. The absence of just one of these 17 minerals will significantly affect milk production, digestion, performance and breeding efficiency.

Your cows need our minerals

... because one of our 13 specially-formulated mixes is likely to complement your feeding program... because our mixes are the only ones which contain our exclusive blend of alkaline-buffered mineral ingredients. If none of our Cattle Special mixes fits your specific feeding program, we can customize the mineral mix you need.

How? By offering a forage analysis service plus a complete feeding program recommendation. With ISF Alkaline-Buffered Cattle Specials you can put your herd on a proven and profitable mineral supplement program which can improve production, breeding efficiency, performance and digestion.

For further information on our products and services call on your nearest ISF representative.
