**"COW PASTURE COMFORT"  
STARTS HERE**

No matter how you prefer to house your dairy herd, you can provide greater comfort for your animals by installing Humane "Comfeze" Cow mats. In conventional and free stall barns, you'll immediately benefit from reduced udder and leg injuries — you'll save time, labor and money by greatly reducing your bedding requirements while providing cushioned comfort for your cows. But don't be fooled by 'look-alike' products. All cow mats are not the same. Humane gives you an unbeatable combination of economy and superior quality, and unlike more expensive mats which are very hard, and when wet, extremely slippery, Humane Comfeze Mats offer greater resiliency, easier cleaning and a textured, non-skid surface.

- Helps protect against udder or leg injuries, helps eliminate swollen hocks associated with bedding on concrete. Helps extend the life and productivity of your cows.
- Cut bedding requirements by 80% or more.
- Sanitary, non-porous mat won't absorb liquids. Flat, non ribbed surface is easy to clean.
- Easily pay for themselves in as little as one year if you purchase bedding — continues to pay off year after year with total benefits.
- Saves time and labor in handling, storage and distribution of bedding. Gives you more time for management.
- Easily installed in new or existing barns and pens.
