GUNITE
Silo Relining & Repairs

Extensive tests have been conducted on Gunite. Below are some of the properties of Gunite:

1. Excellent bonding
2. High Density
3. Extreme strength and hardness
4. High resistance to absorption

The excellent physical properties of the material are due to the water content being only the amount needed to satisfy chemical hydration.

Reseal and re-strengthen your silo with Gunite.

AREA BUSINESSMAN COMPLETES ADVANCED CLASSROOM STUDY

AT DE LAVAL AGRI-SYSTEMS ACADEMY

After five days of intensive study at the DeLaval Agri-Systems Academy in Kansas City, Missouri, Mr. Steve Osborne feels much better prepared to serve the farmers and dairymen in this area.

Steve, who is associated with Cecil Dairy Service in Rising Sun, Maryland recently attended the DeLaval Agri-Systems Academy to take part in a comprehensive course in the Basic Milking System. The course included in-depth classroom instruction and hands-on training with various DeLaval equipment.

DeLaval, a division of Alfa-Laval, Inc., is a 100 year old dairy farm equipment company that markets milking, cooling, feeding, and manure handling equipment through a nationwide network of dealers. The DeLaval Agri-Systems Academy training programs help dealers and their employees stay current with the rapidly changing agricultural industry.

FOR THE CHECK-UP THAT WILL KEEP-UP YOUR EQUIPMENT AT ITS PEAK WORKING CONDITION:

We are now in the process of organizing a program of SCHEDULED MAINTENANCE - which is a regularly periodic checking of the milking equipment on your farm by the authorized person mentioned above.

If you would like to be on the list, please call, and we will give you a time for that regular appointment that will help things work better and hopefully cut down on those costly emergencies.
