

# MUELLER'S UNBEATABLE MILK COOLING COMBINATION

**MILK COOLER**

**REFRIGERATED RECEIVER**

## MUELLER Milk Coolers

You've known about the reputation of **Mueller Milk Coolers** for years. You know it's the Number One Cooler selected by dairymen around the world because of its automatic washing system, its efficient temperature control and agitation system, its cooling efficiency, reliability and durability.

## MUELLER Refrigerated Receiver

Now Mueller has added something new in milk cooling. The **Refrigerated Receiver**. Milk travels through the pipeline to the stainless steel Refrigerated Receiver, where it is rapidly cooled to 55° F. or lower. The milk is then pumped to the milk cooler. The Refrigerated Receiver retards bacteria growth and saves money by reducing cooling time while promoting conditions for higher butterfat counts.
