

**You've got to be good
to make good now.**

**So you cut feed costs.
Without cutting feed efficiency or daily gain.**

Why pay the high cost of expensive commercial protein? Hay and haylage are good sources of protein — and a lot cheaper. However, alfalfa is high in calcium and low in phosphorus. Your cattle need a balance between calcium and phosphorus. The right Vigortone cattle pre-mix will provide this essential balance along with the vitamins and minerals your cattle need.

If you're feeding grain and grain silage, you can still escape the ever-increasing cost of commercial protein. Just buy the most economical source of natural protein available and fortify your rations with the Vigortone cattle pre-mix designed to make up for the deficiencies in your feedstuffs.
