All these machines are spring loaded for rock cushion and vibrating action.

- Hydraulic Fold 22 Foot Wide
- Cylinder and Hose to Tractor
- Field Cultivator Wing
- Transport Width 12 ft.

Wings fold hydraulically for handy transport and turning in the field. They can be pinned for safety and to take the load off the cylinders in transport. The long, sturdy double hitch pole adds stability to wide models, eliminates wobble in rough fields, absorbs the strain of trailing planters or fertilizer nurse tanks.
