

New!

Now there's a new Badger Spreader with more capacity and a guarantee that can't be beat!

For years manufacturers of manure spreaders have bragged about heaped capacities. That's fine, as long as you're handling manure that can be heaped.

But today more farmers are working with liquid and semi solid manure. And no matter how hard you try, you just can't make a pile out of soup.

That's why Badger designed their new BN3210 and BN3260 Manure Spreaders with extra struck level

capacity. The 3210 has a 220 bushel heaped capacity, 143 cu ft struck capacity. The 3260 holds 260 bushels heaped and 166 cu ft struck.

Therefore our cost per cubic foot is less!

But Badger puts more in their spreaders than just space. There's treated wood sides and floor that won't ever rust out. Unitized welded frame and reinforced undercarriage.

BADGER SPREADERS ARE SO STRONG, THEIR WOOD SIDES AND FLOOR ARE GUARANTEED FOR AS LONG AS YOU OWN THEM.

And Badger Spreaders can be customized with exciting options like 1000 RPM PTO, hydraulic liquid end gate, top beater and two great aprons in 667X pintle chain or T-Bar Type.

TROUBLE-FREE HYDRAULIC APRON DRIVE

Badger's hydraulic apron drive provides efficient, trouble-free unloading. The hydraulic drive offers smooth, even delivery to the beater in five speeds! From 2 to 20 feet per minute. And, the system is virtually maintenance free — Economical too!

Strength. Get it with a Badger Northland Barn Cleaner

There's nothing more frustrating than a broken barn cleaner chain. That's why Badger Northland has put over 35 years of development into testing and retesting the chain used in Badger Barn Cleaners. In fact, Badger chains are tested to withstand a minimum of 24,000 lbs of pull. That's what we mean when we say Badger Chains are strong! But that's not the only feature

that makes Badger Barn Cleaners strong. The transmission is engineered for strength too. It'll pull up to 550 feet of chain and that's long enough for even the biggest operations. And Badger Barn Cleaners are backed by the best parts and service network anywhere. Tough, dependable and strong. That's what you want in a barn cleaner.

Solid Manure Handling Equipment from Badger Northland

You know that a good manure management program is important to the overall efficiency of your livestock operation. And Badger Northland designs and builds

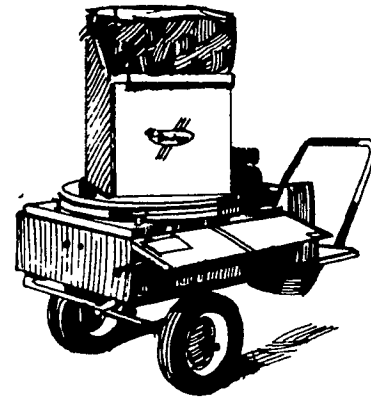

the best equipment to help you with that job. Whether your operation centers on dairy, beef or hog production, Badger has the equipment and the dealer force that's up to the task of giving you strong trouble-free operation day in and day out. So whether you're expanding or updating your operation, see your Badger Dealer now. He's the man who knows about modern manure management.

The new Badger Bale Chopper handles them all... Corn stalks, hay or straw.

Reduce labor and cut bedding costs up to 40% with the new Badger bale Chopper. No more breaking and shaking bales with this handy unit. It easily chops and spreads any type of baled material, all in one single operation. Makes low quality hay more palatable and improves the operation of manure transfer pumps.

Individual doors allow bedding distribution to both front and rear, as well as to the manure gutter. Big 16" tires and swivel caster wheel make maneuvering effortless. And the handy storage rack for extra bales insures non-stop bedding.

Available with either 4.5 h.p. or 6.5 h.p. gasoline engine or 3 and 5 h.p. electric

motor. The Badger Bale Chopper built to last priced right for you.

Free Stall Barn Cleaner

If you have a free stall dairy barn or a hog barn that needs twice a day scraping, the Badger Free Stall Barn Cleaner is just your ticket.

With the Badger Free Stall Barn Cleaner you don't even have to push a button to operate it. You see, everything is automated with a unique time switch that

activates the 1-1/2 h.p. reversing motor that sets the system into motion. This is a well built system that requires little maintenance while delivering plenty of performance. Cows quickly adapt to the safe, slow moving paddle that doesn't disturb them in the least. The Badger Free Stall Barn Cleaner. You'll wonder how you ever got along without it.

The Badger Pow-R-Ram Transfer Pump performs better because it's designed better.

Badger Northland, the manure handling experts have done it again. They've designed a powerful manure transfer system that's unmatched in power, dependability and efficiency.

You'll get your money's worth with this big brute. The key is a new improved piston design which features doubled bearing areas assuring smooth operation and longer life. The transmission, the business end of the system, is specially designed to perform its strong-arm duties quietly and with minimum maintenance.

Three transmission options make this system ideal for stacking, slab, semi-solid basin or structure-liquid operations. Two hopper options let you tailor to your needs and the Pow-R-Ram easily installs in a self-contained concrete form.

Add some punch to your manure handling system with a Pow-R-Ram. See your Badger Dealer now.
