Twine
is twine.
Until
you
use it!

A lower-priced twine may look pretty good when you buy it. But how good will it look when you're using it? When you use Sperry New Holland twine, you'll realize the value received from buying the best. You'll get better knotter performance and fewer missed ties because of the high uniformity. Consistent strength means fewer broken bales in the field and during handling and shipping. When you're putting up quality hay, is the aggravation and downtime from a cheap twine really worth the little bit you saved?

Choose from 4 high-quality, natural fiber twines
