

1982 Pa. Corn Club welcomes new participants

UNIVERSITY PARK — Pennsylvania's Five Acre Corn Club provides farmers an opportunity to compete for corn growing awards, but more importantly club

members can compare the results of their corn production efforts. Summaries of Corn Club yields provide information on the yield effects of numerous cultural inputs

such as: soil types, soil fertility levels, pH levels, plant populations, row spacing, fertilizer practices, weed control, tillage practices, crop rotations, etc.

Farmers may enroll in the Five Acre Corn Club by completing an official entry form at their local County Agricultural Extension Office by July 1. The enrollee must be 18 or more years old and only one entry is allowed per farm and/or farm operator.

The production field must be five acres or more. A Penn State soil test within the past two years is required. If the field area is contoured, two or more strips on the same slope may be included in order to obtain the minimum five acre area. At harvest, all strips must be sampled in the yield determinations.

The acreage must be planted to a single variety of corn. Irrigated fields cannot be entered.

There is an Ear Corn Harvested

class, a Shelled Grain Harvested class and a Three Year Average class for each of the harvest classes. Eligibility in the three year average classes requires a participant to have three consecutive years participation in the Corn Club and each year must have been in the same harvest class.

Current year champions in the ear or shelled grain classes may not succeed themselves, and they are not eligible for the Three Year Average Award. A three year average champion is not eligible to compete in the Corn Club for one growing season.

Club members may obtain individual production costs, by completing the budget portion of the report forms.

SEE US FOR PRECAST CONCRETE CATTLE and HOG SLATS

AVAILABLE IN 4 FT. WIDTH
8, 10, 12 FT. SECTIONS

- We also have underground liquid manure systems
- Above ground systems available
- ASCS Approved
