

Many Brand Tillers Make Claims - But MTD Proves Its's Performance... Call For Free Demonstration.

Rear-Tine Tillers...

Reverse-direction tine operation means even greater efficiency and stability. It makes the 12 self-sharpening, heat-treated tines dig in and thoroughly till the soil on the first pass.

This illustration is representative of the quality features of MTD Rear Tine Tillers and is a composite of a number of different models. It is not intended to show any single particular unit.

Model 212-410, 5 HP.

\$795.00
