

And you can measure them in extra pounds, bushels and tons. Whether it's tomatoes, potatoes, celery, corn, watermelons, onions, cucumbers, cabbage, snap beans or squash. Plus 13 other food crops.

Bravo 500 fungicide delivers first rate protection against 52 yield robbing diseases on 23 food crops. From California to Florida... from the Great Lakes to the Gulf of Mexico.

Every extra pound, bushel and ton of quality production is one more reason for starting your season early with Bravo 500 and sticking

with it all season long.

A regular schedule of Bravo 500 gives you the best disease control money can buy.

So make Bravo 500 your fungicide choice this season. All season. Because acre for acre and spray for spray, there's no more effective way to get bigger yields of better quality. And for a lot of growers, that's reason enough.

Bravo 500 from Diamond Shamrock. Wherever healthy vegetables and melons are grown, it's the name that keeps cropping up.
