

Farmland Preservation ~ It's worth it

Mt. Airy, Lancaster County

Double-Duty Bicep®
controls
grasses and
broadleaves
in corn.

Just pour and spray

Forget about tank mixing, and all the bother that goes with it. Bicep is all you need. Because, all alone, it does the job of a tank mix.

Double-Duty Bicep keeps corn clean — free of annual broadleaf and grass competition — all the way to harvest.

Bicep is a good mixer, too. With water or liquid

fertilizer. Without any fear of incompatibility. Without the measuring, and pouring from different cans and bags.

Incorporate Bicep, or simply surface apply. Use the same rate either way. It's safe to corn, too.

So this year, don't bother with a tank mix. Use Double-Duty Bicep. It does it all.
