

- Feeding Savings
- More Dollars over feed cost
- Improve Herd Health

"THE EXECUTIVE" 8085 SERIES II

Computer Controlled Dairy Feeding System

- Program Each Cow to receive the amounts of feed as compared to production.
- Easy To Operate
- Simple Installation

★ STALL BARN FEEDING IN YOUR LOOSE HOUSING SET UP ★

Computer controlled feeding provides you with all the advantages of individual cow feeding in your free stall housing. For many years dairymen have known that tie stall barns are the way to feed cows and loose housing is the way to house and milk cows. NOW the computer feeder gives the dairyman in loose housing the answers to feed for Max Feed Conversion as in a Tie Barn.

SUMMARY			
Cow #	# Feed Programmed		Ration Fed To This Cow
001	20	20	A
002	10	10	A
003	3	3	A
004	25	25	B
005	17	17	A
		TOTAL FEED - 00075	

The cow number, feed quantity and choice of rations are entered on a keyboard. The computer looks at a tag permanently fastened to the cows ID rope and will allow her to eat 1/2 of this each 12 hr period. At the end of each 12-hour period, the computer will record on tape the consumption of each animal programmed. Other time intervals available.

KEYBOARD & PRINTER

DAILY PRINTOUT SUMMARY

This is a completely automatic system that allows the dairyman to limit and select the concentrate fed to each cow and know how much each cow has eaten. There are systems to handle high moisture or dry concentrate.

THE 8085 WILL PROVIDE FOR

The Cow

1. A feeding stall allowing her to eat unmolested.
2. A feeding area protected from the weather.
3. A control of the quantity and type of concentrate.
4. A gradual increase and decrease of concentrate.
5. Feed control that will eliminate fat cow syndrome, displace abomasum and other feed related health problems.

The Dairyman

1. A feeding system that will provide the correct amount and type of concentrate.
2. A means of changing amounts and types of rations with no cow handling.
3. Less health problems.
4. More milk with less feed.
5. A printed copy twice daily of the feed used by each animal or animals that need attention only.

GLASBORD®

ELIMINATES THE EPOXY AND OTHER YEARLY COSTLY MAINTENANCE TO WALLS AND CEILINGS

FOR FARM BUILDINGS
CLEANABLE
DURABLE

FIBERGLASS REINFORCED PLASTIC PANELS & ROLLS

- Completely automatic, fully assembled ready to operate
- Heavy gauge corrosion resistant aluminum fan blade
- Extra sturdy, corrosion resistant pointed steel frame

Poly Tube Ventilation

Ventilation For Dairy - Hogs & Chickens

Ritchie Fountains deliver. Even in the dead of winter they are out there working. You're not weatherproof. You bet they are. Heating systems and efficient insulation keep water ice free. Just set the Watt Watcher™ thermostat for minimal energy use. Big throated non stick plastic valves keep water gushing in. Each of your cows get all the water they need to promote peak production.

Ritchie Fountains are tough. Too. Quality built with rugged heavy galvanized steel and CD 50 epoxy finish to stand up to weather and ban-plot abuse.

Why take chances on anything less than a red and yellow Ritchie Fountain? Call your Ritchie dealer for water that won't quit.
