HESSTON BALERS...

State-of-the-art

Open-Throat design for sure starts easy operation!

Hesston Round Balers!

When Hesston combined Open-Throat feeding with an exclusive vertical bale chamber, it established today's state-of-the-art in round balers.

Never before has bale starting been so easy or sure. Never before has bale formation been so positive, so easy to control.

Hesston now offers the best balers money can buy in three distinct size categories.

The 5580 puts up 5' by up to 6' dia. bales — at up to 12 tons per hour*

The 5540 builds 4' by up to 6' dia. bales — at up to 10 tons per hour*

The 5510 builds 5' by 5' dia. bales — at up to 8 tons per hour*

There's a Hesston Round Baler to fit your operation with features that can't be equalled anywhere else in the industry.

*Depending on crop and moisture conditions.

There's no other small baler like it!

Hydraulic-driven bale thrower (optional) saves time and labor.

Hesston Model 4600 Beeline Baler

This innovative square baler is one of a kind with exclusive center-line design. Looks like no other you've ever seen and builds the straightest, squarest, 14' x 18' bales on the market.

- Advanced design baler moves crop in a straight line from pick-up until it drops out back as a finished bale.
- Uses exclusive Hesston preformed flake concept for better hay distribution throughout bale.
- Eliminates need to move a row of bales when opening a new field or border. Also ends need to switch from road to field position.
- Optional hydraulic control keeps bale density and weight consistent in varying crop conditions.
- Hydraulic-driven bale thrower option — saves time and labor.
