

# Anthracnose and early blight. Bravo<sup>®</sup> 500 beats them both.

...of fungicide that beats your two toughest diseases.

Fact is, Bravo 500 controls 9 major tomato diseases better than any other fungicide.

A full season, regular spray schedule with Bravo delivers healthier vines, healthier crops and bigger top quality yields ... an average 2800 more pounds per acre bigger. And that's backed by 7 years testing against the other leading fungicides.

What's more, tomatoes treated with Bravo 500 can be either mechanically harvested or hand picked.

So for anthracnose and early blight control all season long, make it Bravo 500. It's all the fungicide you'll need.

Bravo 500 from Diamond Shamrock. Wherever healthy tomatoes are grown, it's the name that keeps cropping up.

Always follow label directions carefully when using agricultural chemicals.
