Question:

Which of the following six lines is most important to today's surviving poultryman?

If you answered F. (the "Bottom Line") you are correct. The other lines (identified below) all play a part, of course, in making up the bottom line. But don't catch yourself bragging to your neighbors about peak production or egg size or feed consumption if your bird isn't the best "bottom line" performer. The DEKALB DK layer, we believe rates with the best on "bottom line" potential. We'd be glad to share with you some of the facts that make true this statement.

(Identification of other lines above: A. Hen-day production, B. Hen-housed production, C. Livability, D. Feed consumption, E. % Large eggs)
