

Talk to the man who knows forage handling systems.

Badger has been building forage equipment for over 30 years. They know what it takes to make forage equipment that is profitably efficient. And they know what is needed to make forage farming profitable.

Badger Dealers also offer the best finance and interest waiver programs, making your equipment easier to purchase.

In season waiver of forage equipment till November 1, 1982.

It's easy to understand why you'll never see a Badger Box in "the forage box graveyard".

You can't buy a better box than Badger's. Start with specially treated acid resistant exterior grade plywood, bolted to steel channel stakes. No nails anywhere. Add to that a tough welded and bolted undercarriage built to carry the big loads. Match all this with Badger's simple and reliable heavy roller chain drive, a beater design that

delivers a smooth even discharge to the blower. And then mount it on Badger's own heavy duty single or tandem axle running gear and you've got a box that will stand up to the toughest punishment.

NOW Badger Northland dealers offer leasing on all equipment.

Badger's Mower/Conditioner...ground hugging, clean cutting efficiency at its best!

Badger's Mower/Conditioners are quiet, solid running, heavy-duty units designed to get all of your valuable forage crop without overconditioning.

Built rugged for less maintenance, longer life, adjustable dial hitch reel speed and tooth pitch. Wheel to cutter bar distance is only 38" to follow ground contours and get all the crop. Unitized header dampens high speed bounce.

Get non-stop silo filling with a Badger Northland Blower!

Badger Blowers make short work of filling high silos. And they consistently outperform other models in volume and speed. Forage or grain, Badger Blowers will handle it all. It's simply the least costly to operate, smoothest running, toughest blower you can buy.

And now, Badger offers a new blower for 1000 RPM tractors!

Now you can process whole cob earcorn and fill a structure up to 80 feet high using one machine and one tractor.

Badger's Earcorn Blower Mill handles wet, shucky, even frozen earcorn. The unique crusher unit shells corn and shreds the cob ahead of the rollers which crack the kernels and reduce the cob further. Other mills available with tilting auger discharge and other options.

**WAIVER OF FINANCE TILL
Oct. 1, '82, on all spreaders, liquid manure pumps & tanks
(at participating dealers)**
