**TRUCKLOAD SALE — KNIGHT SPREADERS**  
*You'll Never Regret Moving Up To Quality*

Early Order Now For Fall Delivery & Receive Extra Discount (All Models)

**350 Souper Solid**  
**The Versatile Knight Spreader**

If you handle sloppy manure, you can fully appreciate the *Knight 350 Souper Solid*.

The 350 Souper Solid has specially flared top steel rails to help prevent spillage during transport...flexible seals around the hydraulic endgate and apron return to retard leakage... and an ingenious system that tilts the box to an angle for fast unloading and fast

clean out of sloppy material. The hydraulic endgate (raised to as little as 3 inches) can be used to meter the flow of sloppy material while the lower spinner beater efficiently spreads the sloppy manure... precisely where you want it.

The same design features that go into our other spreaders make the 350 Souper Solid Spreader the *perfect spreader for handling solids too*. If you buy only one manure spreader, make it the Knight 350 Souper Solid. The best for both.

YOU CAN DEPEND ON A KNIGHT

**RUGGED • EFFICIENT • DEPENDABLE**

Designed, built and serviced by people with many years of hands-on farm experience, Knight Spreaders are made to solve your spreading problems...not aggravate them..

Features like our rugged worm gear drive for positive, trouble-free operation... copper bearing hot rolled steel box for corrosion resistance...auger beaters with alloy steel "ripper" teeth to handle the tough stuff and optional hydro-fluid end-gate for "clean" spreading of sloppy manure... are just a few of the reasons why Knight Spreaders are the choice of successful dairymen and feeders. And for those operations requiring a self-propelled unit, large capacity Knight Spreaders can also be truck mounted.

Available in models with Bushel Capacities of 180, 250, 335, 400, 500 and 600.

Note special LOWER SPINNER BEATER for fine spreading! Rear beater projection shown.

This Model 410 Large Capacity Spreader is available in the Souper Solid Series
