

# Talk to the man who knows feed handling systems.

Extra weight. Extra capacity. Extra performance for top unloading silos. That's what Badger's Pow-R-Trac Unloader is all about.

Badger's Feed Handling Equipment is built to last with a **minimum of maintenance and energy use.** It is designed to help you meet your goals for profitable feeding.

Badger also offers the best finance programs in the farmstead industry with up to four months preinstallation waiver programs available from your participating Badger Dealers!

Select feeding is one of the many trademarks of Badger's Pow-R-Trac Feeder.

Why feed the same valuable feed to all of your animals when you don't have to? With Badger's Pow-R-Trac Feeder, you can save

that valuable ration for high producers or finishing, and feed a different ration to the others. That's what SELECT FEEDING is all about. However, the Pow-R-Trac is adaptable to any feeding situation. A high volume feeder to minimize your labor and energy costs.

Now developing the right rations is even easier with Badger Feed Processing equipment.

Make your feeding program even more profitable with a Badger Feed Weigher/Mixer and Roller Mill Feed Processing Equipment. It's backed by the Badger name which means you'll get the right mix every time.

The Badger Northland Pow-R-Trac Silo Unloader. It's 22 tons\* better!

\*Based on a 24-ft. diameter 70-ft. high silo filled with 70% moisture corn using a multiple suspension ring drive unit.

The Badger Pow-R-Trac is built better than other models with extra iron and extra weight to unload evenly, top to bottom. Match that extra weight with its hardened knives over the full length of the rugged auger and a digger wheel that shaves silage off the walls, and you've got an unloader that will chew through even the toughest hard packed or frozen material.

But that's not all. With its unique 3-point suspension, the Pow-R-Trac hangs higher, up to four feet higher than most ring drive unloaders. And this means up to 22 tons\* of extra capacity! Enough to feed two extra animals, and that adds up to extra profit.

Feed handling versatility is the key to Badger's Pow-R-Glide.

Badger's Pow-R-Glide Conveyor/Feeder handles virtually any application.

- High Volume Conveyor
- Bunk Feeder
- Conveyor/Feeder Combination

One machine, one low horsepower drive unit. Can be tailored to your operation, inside or outside, with inclines, declines and dropouts. It works and works efficiently!

**NOW** Badger Northland dealers offer leasing on all equipment.

**Your Equipment and Service Professionals in this area are:**

**WAIVER OF FINANCE TILL**  
Oct. 1, '82, on all spreaders, liquid manure pumps & tanks (at participating dealers)
