**Research shows you can get 25% more profit per acre by rolling and feeding earcorn, corn-cob mix.**

THE AUTOMATIC EARCORN BLOWER MILL handles wet, frozen earcorn, even roasting ears. High moisture facilities . . . up to 550 bu. per hour. Available with swivel spout for use with wagons, pit or bunker silo, etc

Unique crusher rolls shell the corn, crush the cob ahead of the rolls. No screens to plug, change, or slow down capacity. This exclusive feature permits operation with half the horsepower of competitive machines.
