## Does your Barn Cleaner have a chain this strong?

Remember the tractor picture we used to demonstrate how strong our 5/8" barn cleaner really is? Well, we still use tough, durable chain links in our barn cleaners to assure years of highly dependable barn cleaning. Our chain has the toughest link around. No bolts or pins to shear... no hooks to straighten or break.

Smooth-running oval design offers more flex around the corners. Less power is needed. No nooks or crevices to trap corrosive acids. Dependable steel paddles are welded right to the links for long life. No

pins or bolts to loosen. Steady, double-tooth sprocket drive. We use two teeth to drive the outside of the link for steadier drive, reduced wear. Easy, chain length adjustment with forged connector links.

We have conversion kits, too! Give your present barn cleaner a new lease on life. Our replacement parts are adaptable to almost any make barn cleaner.
