## Outstanding Features

Thick walled for extra strength. No spreader on the market has thicker walls 30 to 70% thicker steel than competitive spreaders

Adjustable relief valve maintains uniform pressure. Prevents over-pressurization of tank

Primary Shut-Off valve, plus a secondary shut-off, provide more than adequate protection against liquids entering the pump

Big 512 cubic inch displacement vacuum pump is standard equipment. Conservation rated at 135 C.F.M. of air at 85 to 90 percent vacuum for filtering and will maintain 10 to 15 lbs of pressure for unloading or agitation in the pit

Open door models permit access for cleaning and easy maintenance

Walking beam suspension. Standards on 2,500, 3,150, 3,600 and 4,600 gallon models (Optional on 1,500 & 2,100 gallon models). Front & rear wheels on each beam follow contour of the ground, provides a smooth level ride

Flotation tires reduce soil compaction. Let you spread on soft ground early in season

Massive frames resist the wrenching twisting, jolting shocks of hard field usage year after year

Sizes - 800 gal. thru 4600 gal.  
Both vacuum & augermatic spreaders for truck mount or trailer type

**SPECIAL**
